Record Type 23	Loan Type/Interest Buydown Record	New Record / New Stratification
Record Type 24	Not Available Record	New Record / New Stratification

Introduction

Ginnie Mae continues to enhance the pool level disclosure data provided to the marketplace. The existing Consolidated Disclosure File Version 2.2 (daily.txt, nissues_YYYYMM.txt, and monthly_YYYYMM.txt) is being transformed to provide separate, more focused and enhanced files on Single Family pools. In Disclosure Bulletin 2018-047 Ginnie Mae announced

enhancements to the disclosure data for Multifamily securities. Multifamily disclosure will be removed from the Consolidated Disclosure File V2.2. Multifamily disclosure data will be in separate enhanced files specific to the Multifamily products (see Disclosure Bulletin 2018-077).

The final step in transforming existing Consolidated Disclosure File V2.2 is the enhancement of the MBS Single Family Pool disclosures (Single Family: Ginnie I pools; Ginnie II Custom Pools; Ginnie II Multiple Issuer Pools).

This document provides the technical specification for the file layouts, record types, and data for the Single Family Enhanced Pool Level Disclosure.

Single Family Pool Level Disclosure Summary Characteristics

Characteristic	Description
Two Physical Files	<p><u>SF Pool/Security</u> File: Pool/Security information with one record per active pool. This will be one physical file with single header record at beginning of file and single trailer record at end of file.</p> <p><u>SF Pool Supplemental</u> File: Supplemental information for all pools, with multiple records per pool. This will be in one physical file with single header record at beginning of file and single trailer record at end of file.</p>
SF Pool/Security Record Type	One Record Type with basic information about the Pool and also provides the Security RPB, RPB Factor, and Weighted Averages (WA) for various attributes. This record is an enhanced version of the current “D” record in the Consolidated Disclosure File V2.2. The SF Pool/Security File will only contain a header, trailer, and this one record type for each active pool.
SF Pool Supplemental Record Types	Twenty-eight (28) Supplemental Record Types providing extensive information about the pool activity and characteristics. Most of these 28 Record types have common format and enumeration characteristics.

Flexible Format	All Records are produced as text format with Pipe () delimited separation between fields. The files will be published in compressed (zip) format.
Population of Records and Fields	<p>SF Pool/Security Record will always be produced. There can be occurrences of “ ” bar-bar where there is no data value for a field.</p> <p>SF Supplemental Records are “data driven” and therefore individual Record Types are produced based on the characteristics of the pool.</p> <p>Fields within Record Types are “data driven” and therefore populated based on characteristics of the pool. There can have occurrences of “ ” bar-bar, where there is no data value for a field.</p>
“At Issuance” Historical Data	The SF Pool/Security Record has four fields for historical "At Issuance" data. This will be a "point forward" implementation for these four history fields. It is anticipated that the first release will have blanks in these fields. The point forward population of these fields is to be determined and will be announced in a future Disclosure bulletin.
Explicit Decimal Point	For fields that have values with decimal points, the SF Pool/Security File records and the SF Pool Supplemental File records will explicitly include the decimal point;
Sort Order of Records	<p><u>SF Pool/Security File</u>: Records will be sorted by Pool ID in ascending order.</p> <p><u>SF Pool Supplemental File</u>: Records will be sorted by Pool ID (ascending order); Record Type within Pool; Field Value(s) within Record Type</p>
Record Type Layouts—Item Number	Each of the Record Type layouts in this document have an “Item” number column. The Item numbers are for documentation reference only, and are not included in the physical output record.
Daily New Issuance, Monthly New Issuance, and Monthly Portfolio	The file layouts are the same for: MBS Daily Pool New Issuance, Monthly Pool New Issuance, and MBS Pool Monthly Portfolio disclosures.
Initial Implementation Dates	<p>New Issuance Files (Daily and Monthly) are targeted for production release beginning with June 2020 New Issuances. Monthly Portfolio will begin with June 2020 data, produced on the 6th business day of July.</p> <ul style="list-style-type: none"> • First Daily New Issuance (June 1, 2020 with June data) • First Monthly New Issuance (July 1, 2020 with June data)

	<ul style="list-style-type: none"> • First Monthly Portfolio (July 9, 2020 with June data)
Production Test Files	Full size production test files for the MBS Single Family Pool Level Disclosures are available on the Disclosure New Release Test File Download page.
Consolidated-to-SF Pool Transition Period	Ginnie Mae will producing the legacy existing Consolidated Disclosure File V2.2 files and the MBS Single Family Pool Level files, in parallel, for a period of 5 months, beginning in January 2020.

General Characteristics of the Files and Records

This section of the document provides an overview of the common characteristics of the records in the files. The detailed technical specification of files and record formats is in the following section of this document.

SF Pool/Security File—The records in this file have a single common format, where there is one record per pool with specified fields. This file does not have stratifications or enumerations. The common record format for the records for the SF Pool/Security File are presented on pages 12-15 of this document.

SF Pool Supplemental File—The records in this file are standardized and have stratifications and enumerations. There are 4 unique, different records layouts. Three (3) of the record layouts have specific common formats:

- Unique Record Types
 - Unique Records – Record Types “01” – “04” (each with a unique record layout)
- Common Stratification Layouts
 - One-Field Stratification Records – Record Types “05” – “18” and “24 - 28”
 - Two-Field Stratification Records – Record Types “19”, “20”, “22”, and “23”
 - Three-Field Stratification Record – Record Type “21” only

SF Pool Supplemental File Summary of Record Types and Names

Record Type	Stratification Level	Record Name
01	None	Adjustable Rate Mortgage (ARM) Pool Detail
02	None	Issuer-Level Pool Detail
03	None	Transfer Activity
04	None	Quartiles
05	1	Loan Type
06	1	Loan Purpose
07	1	Living Units
08	1	First Time Homebuyer
09	1	Removal Type
10	1	Down Payment Assistance
11	1	Loan Origination Type
12	1	Origination Year
13	1	Refinance Code
14	1	Metropolitan Statistical Areas (MSA) Code
15	1	State
16	1	Upfront Mortgage Insurance Premium (MIP)
17	1	Annual Mortgage Insurance Premium (MIP)
18	1	Pre-Modification
19	2	Loan Type/Loan Purpose
20	2	Issuer/Removal Type
21	3	Issuer/Loan Type/Delinquency
22	2	Loan Type/Delinquency
23	2	Loan Type/Buydown Status
24	1	Not Available
25	1	Low and Moderate Income Area

26	1	Re-Pooled Loans
27	1	FHA Partial Claims
28	1	Low Moderate Borrower Income

The SF Pool Supplemental file will contain stratification records that can be “one field”, “two field” or “three field” stratifications. The general characteristics of each is presented below, as each particular type of stratification record will have its own common format. The general specification of each common format is provided as a general guide to the technical specifications.

SF Pool Supplemental File Record Types (05 through 18) and (24 through 28) “One Field Value” Stratification Common Record format

Item	Data Element	Type	Max Length	Format	Description
01	Record Type	Character	2		The Record Type value “05” through “18” and “24” through “28”
02	CUSIP	Character	9		The unique identification number permanently assigned by the Committee on Uniform Securities Identification Procedures (CUSIP).
03	Pool ID	Character	6		The Ginnie Mae unique identifier for the pool; this is assigned by Ginnie Mae at pool issuance.
04	Pool Indicator	Character	1		Identifies the Issue Type of the pool (X, C, or M)
05	Pool Type	Character	2		The type of Ginnie Mae pool. Appendix 1 provides a listing of pool types.
06	Field Value	Character	X		Values described in Record Types “05” through “18” and “24” through “28”
07	Number of Loans	Numeric	6		The number of loans in the pool for the field value.
08	% of Loans	Numeric	6	3.2	The percentage of loans in the pool for the field value.
09	UPB	Numeric	16	13.2	The Unpaid Principal Balance (UPB) of the pool for the field value.
10	% of UPB	Numeric	6	3.2	The percentage of the Unpaid Principal Balance (UPB) of the pool for the field value.

SF Pool Supplemental File Record Types 19, 20, 22, and 23, “Two Field Value” Stratification Common Record format

Item	Data Element	Type	Max Length	Format	Description
01	Record Type	Character	2		The Record Type value “19”, “20”, “22”, and “23”
02	CUSIP	Character	9		The unique identification number permanently assigned by the Committee on Uniform Securities Identification Procedures (CUSIP).
03	Pool ID	Character	6		The Ginnie Mae unique identifier for the pool; this is assigned by Ginnie Mae at pool issuance.
04	Pool Indicator	Character	1		Identifies the Issue Type of the pool (X, C, or M)
05	Pool Type	Character	2		The type of Ginnie Mae pool. Appendix 1 provides a listing of pool types.
06	Field 1 Value	Character	X		Values in the first stratification field as described in Record Types “19”, “20”, “22”, and “23”.
07	Field 2 Value	Character	X		Values in the second stratification field as described in Record Types “19”, “20”, “22”, and “23”.
08	Number of Loans	Numeric	6		The number of loans in the pool for the Field 1 and 2 value combination.
09	% of Loans	Numeric	6	3.2	The percentage of loans in the pool for the Field 1 and 2 value combination.
10	UPB	Numeric	16	13.2	The Unpaid Principal Balance (UPB) of the pool for the Field 1 and 2 value combination.
11	% of UPB	Numeric	6	3.2	The percentage of the Unpaid Principal Balance (UPB) of the pool for the Field 1 and 2 value combination.
